Karanganyar, Central Java, Indonesia

SUMMARY

Software Developer with 3+ completed real-world projects: desktop accounting system, web application with REST API & OCR integration, and company profile website. Experienced working in teams at technology consulting firms and startups, with a proven track record of delivering projects on time. Strong and passionate in back-end development and desktop applications. Fast learner and communicative in technical discussions and client requirement gathering.

TECH STACK: PHP, Javascript, CSS, C#, Visual Basic, Codeigniter, Laravel, Git, Docker, Visual Foxpro 9.0, MySQL and PostgreSQL databases.

EXPERIENCE

Accounting Application Developer (Internship) - Public Independent Multi Consulting (PIMC) | Oct - Dec 2024

Developed desktop accounting application using Visual FoxPro 9.0, Microsoft Access, and Excel Macro. Responsible for data modeling, creating transaction forms, and automating financial report generation to reduce manual processing time.

Web Developer (Internship) - Phicos Group | Dec 2024 - Mar 2025

Built web application for government institutions using Laravel 10 and MySQL with OCR integration (Tesseract) for document digitalization. Developed REST API for system integration and collaborated with a 2-person development team in agile workflow.

Web Developer - CV. Wicitra Elang Lawu (Project) | Apr 2025

Delivered company profile website (www.cvwicitraelanglawu.com) with responsive design and SEO optimization to improve digital presence. Completed full development cycle from requirement gathering to deployment.

EDUCATION

SMK Negeri 2 Karanganyar

Software Engineering & Game Development | 2022 - 2025

Specialized in Backend Development & Desktop Applications
